Savoy Safe N.07

Savoy Safes is the result of passion, research and accurate selection of only truly original antique safes to offer every collector and connoisseur a beautiful and unique place to preserve their lifetime masterpieces.

A Savoy safe is a one-of-kind antique treasure, handcrafted by master-blacksmiths between 1700 and 1800. Each Savoy safe has a complete and perfectly working locking mechanism with its beautiful keys and fascinating opening combination formed by a sequence of tricks and secrets. A complete handmade restoration by our team of expert craftsmen exploits the original magnificence of every Savoy Safe.

The interiors are completely customized according to the highest renowned standards for each customers' passion. Safes are equipped with best-in-class watch winders from Scatola del Tempo, specifically handmade cigar humidors, state of the art wine and liquor cabinets, as well as any other artpiece in a variety of exclusive colors and materials.

# WATCH WINDERS

---

The watch winders, thanks to an exclusive partnership, are realized by:

the first, the only, the original.

All watch winders are equipped with a high precision micromotor and, commanded by a microprocessor, they can rotate clockwise and anticlockwise allowing to maintain the charge of any automatic movement.

Each rotating group is completely independent from the others, as programmed by a very sophisticated electronic card and features 9 different rotating programs ranging from 573 to 1227 TPD.

## SAVOY SAFE N.3

This safe is dated around 1790/1810 and has been handcrafted in the north-western part of Italy, more precisely in the Piedmont region.

It is believed that the safe was commissioned by the government of the Subalpine Republic, introduced after Napoleon's invasion, to safeguard the coins they introduced, for the first time in Italy based on the metric system, replicating the French Franc.

The safe is in perfect conditions and features 5 keys and 3 hooks to activate the incredible and completely original 200 years old opening mechanism.

The interior of the safe is completely handmade in Italy with black leather and is equipped with 42 automatic watch winders and 9 drawers to hold up to 120 watches.

## SAVOY SAFE N.14

This antique safe is dated around the end of the XVIII century and has been manufactured in Northern Italy.

The safe is double leaf and has superb keys, one of them shaped in GB initials.

The lock and opening mechanism of the safe has a two-locks system, completely original and working through a hidden release to expose the key hole.

The interior has been studied for wine collectors to hold their precious collection of rare and exclusive wines.

The safe displays 45 wine bottles up to magnum size and an extra 60/80 bottles in their wooden box.

CASSEFORTI SENZA TEMPO

## SAVOY SAFE N.15

Northern Italian medium size hobnail safe ,  
dated around 1830, found in the Lombardy  
region, next to the city of Bergamo.

The safe presents a beautifully decorated  
front door with the main key hole situated  
on the left and that is exposed with a hidden  
release and a double sequence to follow  
with both the key and a special hook to  
activate the lateral locking mechanism and  
open the safe.

The door features a total of 3 locks and  
opens for the full height of the safe.
